Subject: Issue with CPG Supplier Directory and Rubber Playground Surfacing made from recycled tires

ALL: CPG issue.

Attachments: CPG documentation from Background documents, Granuband manufactured products

June 28, we received an email from Ex. 6 Personal Privacy (PP) a manufacturer who uses 100% recycled car, truck and tractor tires for horse footing, cattle footing, Synthetic Turf Infill (pour in asphalt rubber paving) for mats and playground surfaces, playground mulch, and landscape mulch of various sizes from 3/8" to 1" pieces. The synthetic turf infill, pour in place mats use 10-20mm pieces of asphalt rubber paving.

They requested to be placed on our CPG Supplier Directory for the 3/8"-3/4" playground mulch, ASTM certified.

Playground surfaces made with tires and other recycled rubber was promulgated as a CPG product in CPG I, in and proposed

Questions and Issues:

1. <!--[if !supportLists]--><![endif]-->Issue 1 – Do we define playground surface as solid or pieces of mulch, or both?

a.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Supplier for inclusion in the directory.

2. <!--[if !supportLists]--><![endif]-->Issue 2 – Beneficial Use of Recycled Tires: Can we actually promote and add a vendor to our directory when we are looking into the health effects of using recycled tire material and the reports on ill effects have been surfacing all over?

- a.

Ex. 5 Deliberative Process (DP)

We can meet and discuss this and reach a decision or you can just answer this email.
